TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS, SQL **Frameworks:** React, Next.js, Node.js, Express.js, FastAPI, Android (Kotlin), Jest **Tools & Libraries:** Git, Linux, MySQL, Firebase, n8n, nodriver, Playwright, pandas, XGBoost
Core Concepts: Web Scraping, REST APIs, Data Pipelines, Machine Learning, Automation, Technical SEO

PROFESSIONAL EXPERIENCE

EC Restaurant Supply **Atlanta, GA**
Software Engineer *Jan 2026 – Present*

- Architected an asynchronous web scraping pipeline (Python, nodriver, Playwright, pandas) to automate price monitoring across e-commerce platforms, processing 9,000+ SKUs and eliminating hours of manual research weekly.
- Defeated advanced anti-bot detection by migrating from Playwright to undetected Chrome (nodriver), implementing randomized request timing and stealth browser contexts to achieve near-100% data extraction reliability at scale.
- Boosted organic site discoverability by configuring Google Search Console, resolving critical crawl and indexing errors, and interpreting performance analytics to drive overall technical site health.

Zeonsolutions.ai **Atlanta, GA**
AI Engineering Intern *Sep 2025 – Present*

- Built an automated video analysis pipeline using n8n workflow automation, enabling scalable video crawling, data extraction, and ML-based content analysis for social media insights.
- Led technical consultations with partner companies on system architecture, deployment workflows, and API integration to embed AI-driven automation tools into client operations.

Georgia State University **Atlanta, GA**
Lab Instructor – CS 2510 / 2710 *Sep 2024 – Present*

- Instructed Discrete Mathematics and Data Structures to 50+ undergraduates per semester; facilitated weekly labs, significantly improving student engagement and comprehension of formal logic, and algorithmic efficiency.

National Science Foundation (NSF) Research Program **Atlanta, GA**
Software Engineering Intern *Jun 2023 – Dec 2023*

- Developed MLEcoFi, a comprehensive machine learning ecosystem for solar-filament detection; engineered data pipelines processing 10,000+ astronomical images.

TECHNICAL PROJECTS

Industrial Web Platform | Regal Industrial Corporation – *Next.js, React, TypeScript, Framer Motion, SEO*

- Architected 5+ production-grade pages using Next.js and TypeScript, utilizing Framer Motion animations to deliver a polished, high-performance user experience with vivid page transitions.
- Implemented JSON-LD structured data, OpenGraph metadata, and technical SEO best practices to dramatically improve search engine indexing and accurately surface SSPC certifications and regulatory compliance.

Real-Time Sensor Data Classification System – *Java, Python, Android SDK, FastAPI, WebSocket, XGBoost, CNN*

- Built an Android data-capture client with a foreground service streaming 50Hz motion-sensor data and exporting structured CSVs, integrating with a FastAPI backend via REST and WebSocket endpoints for real-time ingestion.
- Architected a two-phase system that ingested and processed 1,400+ recordings for offline model training, then served real-time inference through a modular, low-latency prediction service powering a live dashboard.

Membership Management System - *React, TypeScript, Node.js, MySQL*

- Built a scalable membership platform to track members, payments, and attendance, using React for UI, Node.js for backend logic, and MySQL for data storage.
- Integrated secure authentication and CRUD operations, increasing administrative efficiency and ensuring accurate data management across modules.

EDUCATION

Georgia State University **Atlanta, GA**
M.S. Computer Science GPA: 3.76/4.00 *Sep 2024 – May 2026*
B.S. Computer Science GPA: 4.00/4.00 (*President's List)* *Sep 2022 – May 2024*

EDUCATION

President, Taiwanese Student Association, Georgia State University **Atlanta, GA**

- Current president, directed a 50+ member organization; spearheaded cultural programming and cross-community outreach initiatives, developing executive leadership, strategic communication, and event coordination skills.
